

Welcome to our 2s Program

Our 2s Classroom

We have wonderful books in
our classroom.

We have a sink and toilet in our classroom.

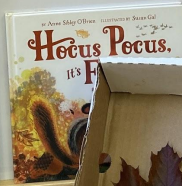

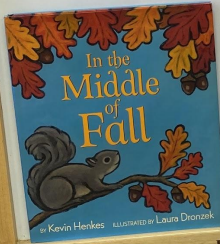

Circle Time Activities

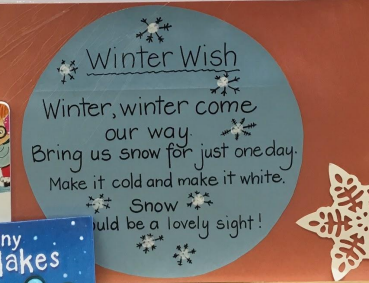

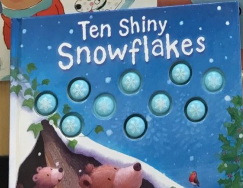

WORD of the WEEK

leaves

winter

At Circle Time we sing songs, read stories, explore words and share ideas.

**Popsicle stick puppets,
made from characters in books,
help us to develop language skills
as we act out parts of stories or
imagine what might happen next.**

**"It's mine, but you can have some. With you I'd like to share it.
Cause if I share it with you, you'll have some, too!"**

We like to sing this song at Circle Time as we practice sharing.

Centers and Activities

Reading

Math

We count everything!

Building

Cooperative Play

Imaginative Play

Teamwork

Science is Exploring

Our apple words

Hadley - "You get them when you go apple picking."

Piper - "This one is green and this one is red."

Lila - "That big one is green and the little one is red. And the other one is yellow."

Colton - "I ate one when I went apple picking. I saw some under the tree."

Grayson - "I like red apples. They're juicy."

Theo - "My apple is red and it has green on it."

Science

Children explore natural materials and use words to describe their experience.

ART

Sensory Play

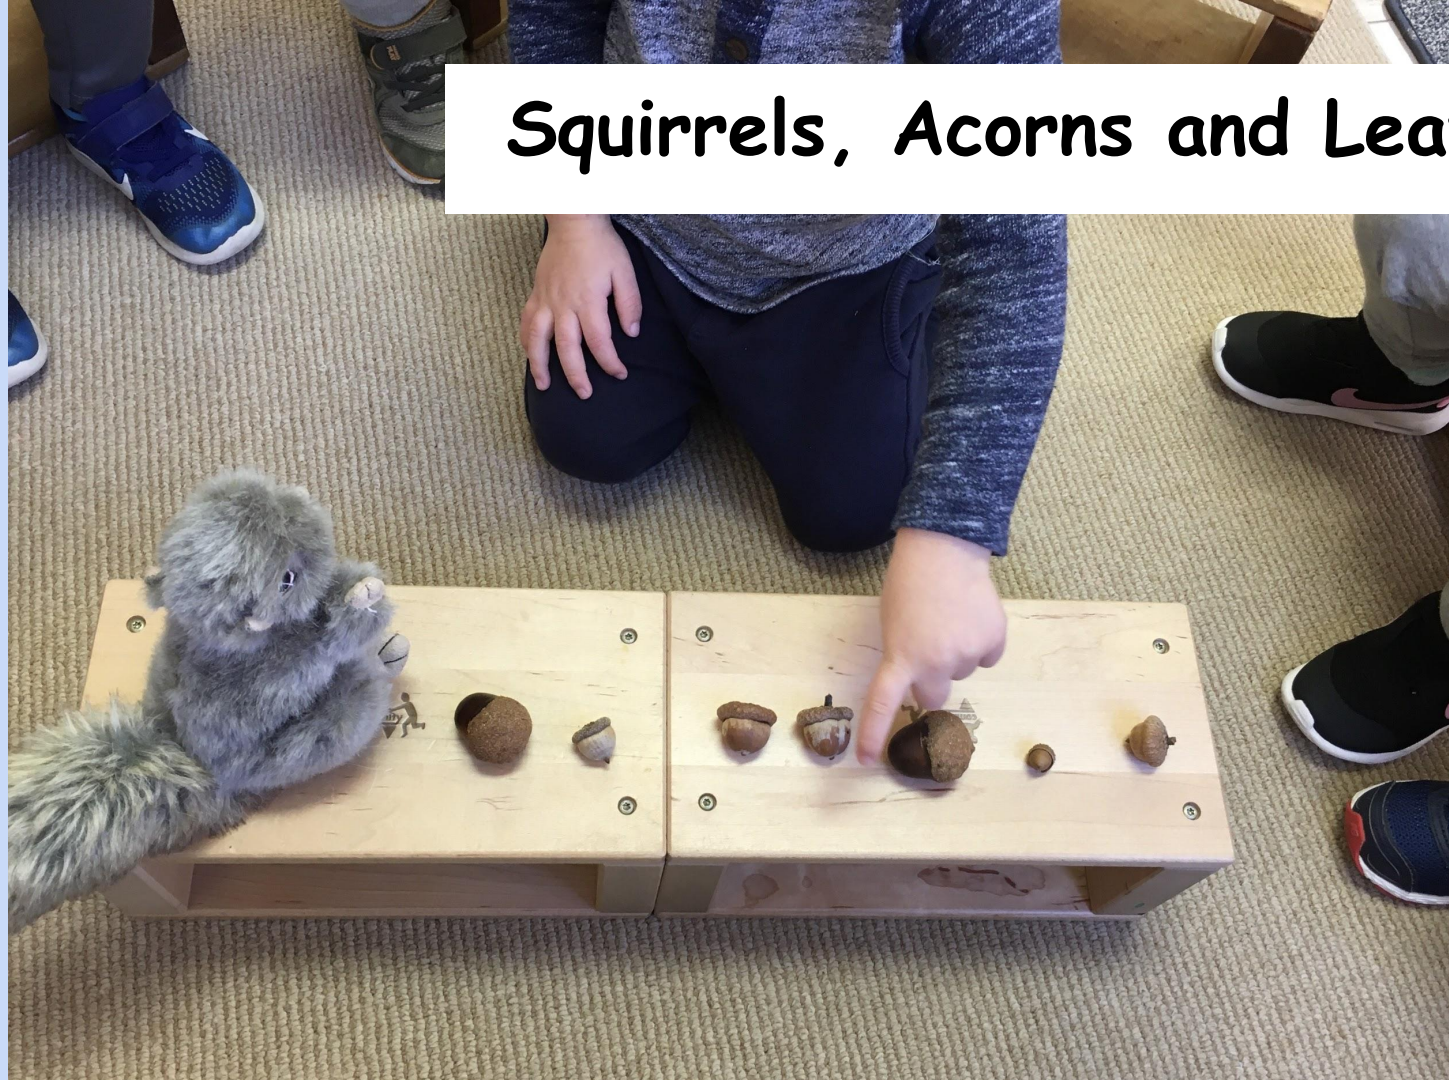

Curriculum Themes

Pumpkin Exploration

Squirrels, Acorns and Leaves

We put acorns in the tree for the animals to find.

Winter Snow Project

Planting a Rainbow by Lois Ehlert

Welcome Springtime!

Playground

Gym Time Fun

Gross motor play is so important to physical development and to enhance social and emotional skills. We play outside or in our gym every day.

Our 2 $\frac{1}{2}$ year olds have so much fun
playing, learning and making friends at
FPNS.

We hope you will come join the fun.
